Copper Casting Copper Alloys Castings

Material Used for Copper Casting Copper Alloys Castings

- ▶ Brass or Copper Alloy Non ferrous alloys Bronze Copper Casting .
- ▶ Brass is 319 type or BS 249 type .
- ▶ Any special Brass Material Composition as per Customers Requirement .
- ▶ Brass to BS 2874 / 2872.
- ▶ Brass natural, Electro-Tinned, Nickel etc.

Copper Castings Weights

- ▶ from 10 Grams to 40 kg's.

We can offer **Copper Casting Copper Alloys Castings Brass Machined Casting Copper Castings Machining Cast Parts**

- ▶ **Size** : Specification or as per Custom Design or Requirement..

Finish And Coating

▶ Natural, Nickel Plated, Tin Plated Or Any Coating As Per Customer Specification. Any Kind Of Special Die Casting Sand Gravity Die Lost Wax Shell Molding Castings And Cast Parts Casting Produced To User Specifications. We Can Be More Competitive Than Chinese Castings And Cast Parts Made In China Taiwan Asia Korea As Traditional Indian Expertise In Copper Castings s And

Copper Castings Is Superior And Indian Brass Foundry / Foundries Are More Competitive Than Other Brass Foundries.

We shall be pleased to develop Non-Standard Copper Castings Brass cast parts castings as per specific requirements.
